NAGARAJAN
Full-Stack Developer

RESUME SUMMARY

Enthusiastic and self-driven full-stack web developer with hands-on experience in building responsive web applications using the MERN stack (MongoDB, Express.js, React, Node.js). Proficient in multiple programming languages including Python, Java, C, C++, and C#, with strong skills in JavaScript, RESTful APIs, and responsive UI/UX design. Skilled in both frontend and backend development, version control with Git, and passionate about solving real-world problems through technology.

PROFESSIONAL EXPERIENCE

I am a fresher with no formal work experience, but I have gained valuable experience through multiple hands-on projects that reflect my skills, dedication, and practical knowledge

PROJECTS

Itachi AI – Chatbot Web Application

A full-stack chatbot website developed using the MERN stack and Gemini API. It features user login, personalized chat experience, and stores chat history for each user. Designed with a responsive UI for seamless use across all devices.
